

Housing

Scope It is currently unknown what gaps may exist for the unique needs of Seniors in N Reading. The goal is to keep Seniors, Vets and disabled in their homes and community for as long as possible but when a transition is needed, appropriate and affordable housing should be available within the borders of NR if possible.

Specific Objectives

- Identify gaps in housing choices when compared to SVT demographics.
- Reach out, identify needs and line up resources to help meet those needs.
- Work with CPC

Challenges

Assisted Living is not the only answer. Gap study needed to fully educate decision makers.
